SUBJECT: Command Objectives through 1 July 1955

TO: See Distribution

1. General.

a. The period through 1 July 1955 is programmed to include the phasing out of MATS Units and SAC assumption of control over Westover AFB not later than 1 April 1955. During the latter referenced period, it is expected that the support activities at the Westover AFB will remain in a relatively stable condition with few personnel changes. In view thereof, the majority of the existing procedures and agreements should remain effective with a minimum of adjustment necessary. Therefore, the overall objectives of the 3084th Aviation Depot Group include:

- (1) Continuing to develop policies and procedures as appropriate.
- (2) Maintaining proficiency throughout in mission capabilities.
- (3) Adjusting existing procedures as may be appropriate.
- (4) Orienting and training all newly assigned personnel to insure their maximum utilization within a minimum of time.
- (5) Continuing emphasis on leadership development and morale building activities throughout the organization.

2. Operations Directorate will.

a. Accomplish training necessary to insure capabilities as directed, including specific requirements of AMC Letter "AMC Site Capabilities" as amended, and AMC Operations Plan 4-55.

b. Maintain the latter capabilities through continuous coordination with activities concerned in order to insure immediate mission accomplishment according to plans.
